WE CAN HELP

One of the greatest advantages of membership in My Credit Union has been our auto refinance program.

We understand members may purchase new or used autos over the weekend when the credit union is closed.

No problem! We offer the chance to refinance at My Credit Union.

Our employees are happy to help and do all the paperwork.

Just drive your auto to the local branch and bring your payment book, account number and 10 day payoff. We can help you get the payoff if needed. We get your loan approved and send a check to the finance company and you are saving next month. Give us a call on any vehicle you have financed elsewhere.
